

Pulse Finland Oy

The Mobile Division of Pulse Electronics is the world's leading manufacturer of mobile device antennas. Other products of the Division include antennas in integrated modules for mobile phones and other wireless devices.

The Division is a forerunner in mobile antenna technology, with some of the leading wireless device manufacturers as its clients.

The Mobile Division business premises in Finland, Pulse Finland Oy, are located in Kempele, and the Division operates also in China, Southern Korea, and USA. The Finnish unit was earlier known by the name LK Products.
