

Randax Oy

Randax Oy is a company developing permanent-magnet motors, generators, and larger electrical engineering systems.

The compact Randax® motors save space and are easy to integrate with the clients' existing devices. This way we can execute optimised systems to reduce the cost and energy consumption of the clients' processes.

Some examples of the applications of our technology can be found in process pumping, air treatment, metal and paper industry as well as in electric and hybrid vehicles.

Our company is located in Oulu. We are in the turnover class of under 0.5 million euros and the personnel class of 1–10 people.
