WHAT IS MUNICIPAL EMPLOYMENT TRIAL?

The municipal employment trial is a national project in which some of the Employment and Economic Development Office's tasks are transferred to the municipality. The purpose of the municipal employment trial is to improve the access of customers to the labour market.

In this area, the municipal employment trial covers Oulu, Kempele, Hailuoto, Ii, Liminka, Lumijoki, Tyrnävä and Muhos. These municipalities provide employment services to their jobseekers.

In Oulu, this means that BusinessOulu's Employment Services are responsible for the services.
